## Renewable energy product offerings

Markel Renewable Energy products are casualty primary and excess placements marketed through a designated network of appointed brokers.

### Coverages

- Markel Renewable Energy provides both primary and excess casualty solutions to the market
- Renewable energy placements are driven by general liability coverage and may be packaged with contractors pollution and/or professional liability
- Excess coverage may be written in a lead position to support Markel Energy on the primary or unsupported excess with another primary and minimum lead \$5m excess placement beneath our layer
- Products are written on non-admitted paper

#### **Commercial general liability**

- Third-party bodily injury and property damage
- Occurrence or claims-made forms available

#### **Contractors pollution liability (CPL)**

- Third-party bodily injury and property damage and clean-up
- Mold and legionella
- Incidental professional
- Transportation pollution – broad definition for both first- and third-party operators
- Non-owned disposal sites
- Sudden and accidental coverage for blanket covered locations – offices, warehouses and staging locations
- Crisis management and emergency response
- Supplementary payments

#### **Energy professional liability\***

- Claims-made and reported
- Covers legal obligation for damages
- Broad duty to defend against suits
- Supplementary payments
- Rectification and mitigation expense coverages available

\*Professional liability is available for professional services when performed for third parties for a fee. We are not a market for contractors professional.

#### **Follow form excess**

- Excess of the CGL, pollution and professional liability coverage, including auto liability and employers liability and other coverages
- Minimum underlying limits
  - Auto \$1,000,000 CSL
  - Employers liability \$500,000/\$500,000/\$500,000
