### Quoting requirements

- Completed application signed by the applicant and retail agent
- All underwriting questions must be answered
- Loss history for the last five years

### Target classes

- Primary
- Secondary/seasonal
- Rental – full – and short-term
- Vacant
- Builders risk including mid-term construction
- 2-4 family dwellings where one of the units is owner occupied primary
- Standalone other structures

### Ineligible classes

- Sub-standard homes with hazards, deficiencies, or damage that may present as increased exposure to physical damage or liability loss
- Dwellings that are 5-family or more

### Risk management and loss control

- Markel will order insurance score reports, applicable distance to coast, wildfire score, and response time reports
- Property inspections must be obtained on all dwellings written as new business and reordered at the third Markel renewal. All inspections require accompanying photos, hazard identification, and applicable value of dwelling and other structures.
- Wildfire eligibility score and TIV limitation rules apply to the following states: AK, AZ, CA, CO, ID, MT, NM, NV, OR, UT, WA, and WY
- Wind aggregate/capacity is monitored for coastal exposure. Risks may be declined based on over-concentration or low capacity.
- Roof surface settlement schedules or exclusions are required depending on state/location, roof type, age, and condition

### Limits or capacity

- Dwelling minimum: \$100,000 (with exceptions for certain states, seasonal/secondary, and HO-6)
- TIV maximum: \$7,000,000 (\$3m CA, additional brush restrictions will limit TIV)
