A unique hybrid policy

We recognise the increasing financial pressure law firms are under in the post-Jackson era. The increase in court issue fees presents yet another financial barrier and potentially creates a conflict of interest between solicitors and their clients.

Our solution to this problem was to design the market's first hybrid ATE insurance policy. The cover provided by this policy enables the law firm to claim the court issue fee as an interim payment, as opposed to only at the end of the case.

This benefit helps share the financial burden of the litigation and removes any potential conflicts of interest.

Our insurance protects your clients from risks they will face under Qualified One Way Cost Shifting (QOCS), whilst enabling you the freedom to run your cases, your way.

Full delegated authority

-  You decide which disbursements are necessary to run the case
-  You decide whether or not to reject any offers
-  You decide whether or not to issue proceedings
-  You decide whether or not to go to trial

Cover includes:

-  Up to £300,000 limit of indemnity
-  Hybrid cover for court fees and own disbursements*
-  Disbursement cover – no reporting requirements
-  Failure to beat Pt36 cover – no reporting requirements
-  Interim/interlocutory cover
-  Multi-defendant cover
