

Markel Energy – wholesale

We know your risks

MARKEL

Energy product offerings

The Markel Energy product consists of casualty driven primary and excess placements marketed through a designated network of appointed brokers.

Coverages

- Energy placements are driven by general liability coverage and may be packaged with contractors pollution and/or professional liability
- Markel Energy provides both primary and excess casualty solutions to the market for wholesale distribution
- Excess coverage may be written in a lead position to support Markel Energy on the primary or unsupported excess with another primary and minimum lead \$5m excess placement beneath our layer
- Products are written on non-admitted paper

Commercial general liability

- Third-party bodily injury and property damage
- Occurrence or claims-made forms available

Contractors pollution liability (CPL)

- Third-party bodily injury and property damage and clean-up
- Mold and legionella
- Incidental professional
- Transportation pollution – broad definition for both first- and third-party operators
- Non-owned disposal sites
- Sudden and accidental coverage for blanket covered locations – offices, warehouses and staging locations
- Crisis management and emergency response
- Supplementary payments

Energy professional liability*

- Claims-made and reported
- Covers legal obligation for damages
- Broad duty to defend against suits
- Supplementary payments
- Rectification and mitigation expense coverages available

*Professional liability may be available for professional services when performed for third parties for a fee. We are not a market for contractors professional.

Follow form excess

- Excess of the CGL, pollution and professional liability coverage, including auto liability and employers liability and other coverages
- Minimum underlying limits
 - Auto: \$1,000,000 CSL
 - Employers liability: \$500,000/\$500,000/\$500,000
 - CPL: \$1,000,000
 - Professional: \$1,000,000

Target classes

Upstream operations (non-downhole) – monoline GL, combined form package GL, lead excess or unsupported excess

- Valve manufacturers and remanufacturers for upstream operations
- Flowback line construction (eight inches or less)
- Drilling engineers/consultants
- Drilling fluid engineers/consultants
- Drilling mud dealers

Target classes (continued)

- Drilling of water wells only
- Non-destructive testing services
- Flowback contractors
- Geologists
- Geophysical services contracting
- Geophysical/seismic engineers or consultants
- Machinery and equipment installation
- Landmen
- Mud loggers
- Wellsite consulting – completion, drilling, workover consultants – observe and report only – for primary greater than \$50k (max capacity \$5m) – no lead unsupported
- Lease operators and non-operator working interest
- Oilfield equipment manufacturers
- Oilfield welding (not including over the hole or hot tapping work)
- Plant maintenance and plant turnaround
- Plug and abandonment contracting
- Pumper/gauger
- Reservoir engineers/reserve modeling
- Roustabout services
- Sales and/or leasing of new tools/equipment
- Saltwater disposal wells
- Tank and vessel manufacturers (no trucks or trailers)
- Tank cleaning, sand blasting, painting
- Vacuum services
- Valve installers/re-packers

Upstream operations (non-downhole) – primary only

- Safety consultants – classroom only
- Wellsite consulting – completion, drilling, workover consultants – observe and report only – for less than \$50k in premium

Upstream – over the hole or downhole operations – monoline GL, combined form packaged GL, lead excess or unsupported excess

- Acidizers
- Coil tubing
- Downhole packers, bridge plug manufacturers
- Drill bit manufacturer
- Wireline services products
- Fishing services
- Hot oil
- Perforators
- Torquers
- Plug and abandonment contracting

Upstream – over the hole or downhole operations – monoline GL, combined form packaged GL or unsupported excess (no lead excess)

- Casing services
- Cementing
- Well servicing products
- Hydraulic fracking
- Pressure testing – pipe

Upstream – downhole operations – excess only

- Pressure testing – well
- Tubing, casing, collar product manufacturers

Target classes (continued)

Midstream – monoline GL, combined form packaged GL, lead excess or unsupported excess

- Midstream service contractors (i.e pipeline, compression, storage, processing, etc.)
- Directional drilling
- Dirt work/excavation
- Gas processing and compression risks – field treating/separation
- Equipment maintenance contractors (generators, compressors, etc.)
- Tank storage maintenance/repair
- Equipment manufacturers (valve, pipe, compressors, generators, etc.)

Midstream – excess only (no lead excess) – minimum attachment point \$10m

- Pipeline operators
- Pipeline painting/coating operations
- Piggig contractors

Downstream – monoline GL, combined form packaged GL, lead excess or unsupported excess

- Turnaround/Industrial service contractors (refinery or petrochemical operations)
 - Electrical, carpentry, plumbing, mechanical repair, drum/tank maintenance, etc.
- Downstream equipment manufacturers (valves, drums, tanks, etc.)
- Tank storage maintenance/repair

Downstream – excess only (no lead excess)

- Refinery facilities (minimum attachment point \$25m)
- Petro-chemical facilities (minimum attachment point \$25m)
- LNG processing facilities

Power/utility – excess only

- Power generation, transmission and distribution (facilities)
- Power generation, transmission and distribution (contractors)
- Utility maintenance contractors

Maximum limit of liability**

\$15,000,000

**Note: Subject to potential capacity constraints, please refer any questions to your Markel underwriter.

About Markel Energy

Markel's energy specialists offer creative solutions with a uniquely diverse appetite in an insurance market that is complex and constantly evolving.
