Coverages

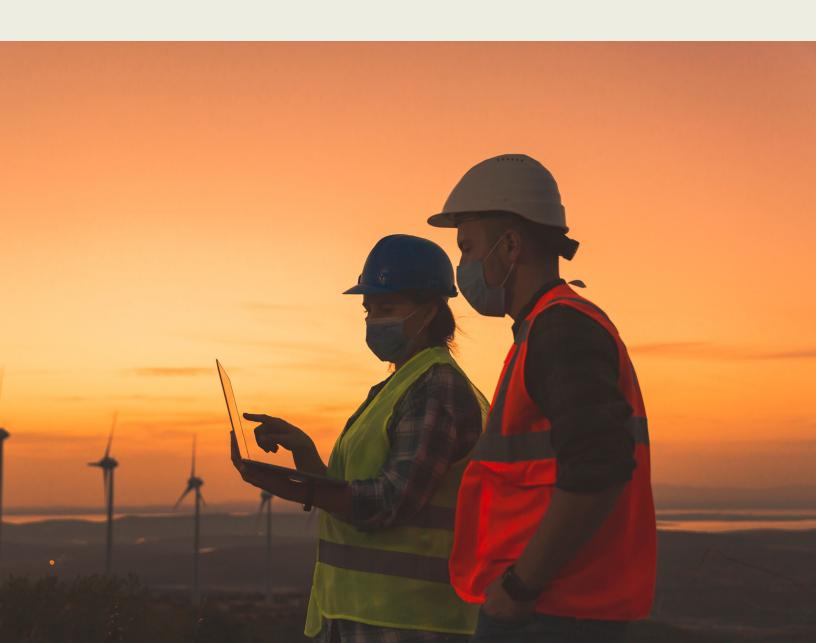

- Markel Energy provides excess capacity to the market for retail distribution
- Markel Energy's excess capacity is focused on sitting above casualty driven programs including sudden/accidental pollution terms where there is a primary and at least a lead \$5m excess placement beneath our layer
- Excess coverage is provided on casualty towers for energy risks in \$5m and \$10m stretches of limit
- Product includes "follow form" language sitting excess of the CGL, auto liability, employers liability and other coverages as needed
- Markel Energy can sit excess of both occurrence and claims-made coverage triggers
- Both admitted and non-admitted paper is available

Maximum limit of liability**

\$15,000,000

**Note: Subject to potential capacity constraints, please refer any questions to your Markel underwriter.
