

Our Fintech policy covers financial technology companies in the event of a claim and we provide comprehensive breach-response services as standard.

As one of the largest and longest-standing Fintech teams, we provide underwriting expertise, breadth of cover and professional claims service.

We have underwriting presence across Asia Pacific, the Middle East and London, providing customers with global expertise that is delivered locally.

Since launching our Fintech policy in 2016, we have worked closely with clients to create bespoke insurance solutions and we carefully consult with regulatory bodies to understand and accommodate local requirements.
