

Environmental Liability

International Casualty – Specialty

Our Environmental Liability policy offers worldwide coverage on premises and site pollution across a range of areas including manufacturing, public sector and utilities, as well as contractors for construction, demolition, engineering, forestry and more.

Our specialist underwriters and dedicated claims handlers provide the right expertise at the right time for partners and clients internationally, with a particular focus on the UK, providing global expertise that is delivered locally by a professional that you know and trust.

We are able to offer lines sizes up to £25M meaning we can support a range of insureds from small to mid-size businesses. This can be on an annual or project-specific basis, and in certain cases will consider offering retroactive coverage.

Confidence in claims

We see ourselves as enterprising but measured, delivering insurance solutions that are effective as well as innovative, and listening carefully and working transparently with our business partners and clients. At the heart of everything we do is an unshakeable commitment to fairness and respect. We meet client needs with confidence because we're driven by a long history of industry leadership and expertise.

Whether you are a business, organisation or individual, when the unexpected happens, we are passionate about getting you back on track.
